

## COLOR COLLECTION

Beauty and vision, performance and strength – it all comes together in our assortment of color selections. Customize the appearance of your windows with our beautifully styled decorative options.

<sup>5</sup> Bronze exterior is not available for garden windows or 6500 Series patio doors.

## GRID OPTIONS

Decorative grids lend an added measure of style and dimension to your windows. All grids are enclosed within the insulated glass unit for easy cleaning. Select a grid profile and pattern to achieve your ideal finished look. Designer grids are also available for design flexibility.

## OBSCURE GLASS

Obscure glass styles offer privacy for bathrooms and other areas of your home without blocking the natural light.

## SWING AND HINGED DOORS INTERIOR HANDLE FINISH OPTIONS

Select the perfect finish for your door handle with eye-catching options to choose from.

<sup>6</sup> Special order.

## SLIDING PATIO DOOR INTERIOR HANDLE FINISH OPTIONS

The Contemporary and Classic door handles feature a popular design with a thumb latch. The French-style door handle is gracefully contoured and includes a top lock.

### CONTEMPORARY AND CLASSIC

## FAMILY-OWNED FOR 3 GENERATIONS . . .

3 Generations Improvements is a family-owned business that prides itself on a combined 112 years of experience in SIDING, WINDOWS and DECKING! In 1956 Grandpa Bob Owens began his career in this industry, followed in 1976 by his son, Kurt Owens and his grandson, Jeremy Owens in 2002. Using our experience, along with the highest quality products and craftsmanship, we are confident that we can provide you with the customer service and professionalism you deserve! And remember, 'it's not just your home, it's our legacy.'

Season after season, year after year, Legacy Windows and Doors will maintain their classic beauty despite exposure to the elements. The premium vinyl construction won't rot, split, corrode or pit like painted wood windows and won't swell or warp from exposure to moisture. Durable and strong, your windows will beautifully withstand everyday wear and tear and require minimal upkeep.

## ENERGY-SAVING INSULATED GLASS

For most homeowners, lowering fuel costs for heating and cooling is a key motivation for purchasing new windows. Windows are roughly 80% glass, so it's important to choose the best glass system for your home and specific climate conditions. Upgrading to a high-performance insulated glass\* package with Low-E glass will help further increase year-round energy savings. Low-E (low-emissivity) glass is created by applying multiple layers of microscopic, undetectable metallic coatings to the surface of a piece of flat, annealed glass. This coating acts as a thermal mirror, reflecting radiant heat back into your home during winter and reducing unwanted solar energy in the summer. Low-E also helps block damaging UV rays that can cause furnishings and carpet to fade.

The spacer system in your windows provides two important functions: stabilizing the panes of glass and enhancing energy efficiency. A warm-edge spacer is just one way of increasing your window's performance. The Intercept® Spacer System features a unique, one-piece U-channel design that creates an effective thermal barrier to help reduce conducted heat loss through the window. Its sealed one-piece design makes Intercept Spacers stronger and better at retaining insulating gas than many conventional designs.

By choosing windows from 3 Generations Improvements with the ClimaTech insulated glass package, you can help to reduce your heating and cooling costs, making your home more comfortable at the same time.

Low-E glass filters long-wave radiation from the sun. This reduces solar heat gain from the summer sun, helping to keep your home cooler.

Low-E glass takes on a new duty in winter months. It lets warm solar rays into your home, while preventing indoor heat from escaping.

## FREE ESTIMATES

When you contact 3 Generations Improvements for a free in-home consultation, our representatives will schedule an appointment at your convenience and give you a closer look at our products. They will also inspect the products you are looking to replace and suggest potential next steps.

## WHAT OUR CUSTOMERS HAVE BEEN SAYING:

We would recommend 3G to anyone. They completed our window and siding remodel project at a fair price and in record time. Their hard work and attention to detail was always appreciated. Kurt has been in the business for years and it shows.

- Dave and Mandy  
Danville, CA

Thank you for the time, energy and dedication that went into our window and siding project. We receive numerous compliments on the quality of work and attention to detail. We enthusiastically recommend you to others.

- Mike and Denise  
El Dorado Hills, CA

## LEGACY WINDOWS ASSURE LASTING QUALITY, PERFORMANCE AND ENERGY EFFICIENCY.

- 1 EdgeForce** makes a statement of style with its low-profile frame and sash, creating an expanded glass area. At the same time, internal chambers increase structural integrity, rigidity and energy efficiency.
- 2 CoreFX** innovative composite reinforcement allows for secure mounting of hardware and the non-conductive material helps reduce the transfer of energy.<sup>1</sup>
- 3 Defense-Tek's** end-of-throw cam shift locking action delivers increased strength and protection. The low-profile design includes a "locked" indicator that tells you if your windows are left unlocked.
- 4** Smooth and uniform, **Forecaster** quickly directs water runoff without the use of weep holes, keeping the exterior of the window clean and attractive.<sup>2</sup>

**Our** HP3 telescoping sill dam delivers a triple payoff: protection from air and water infiltration, increased structural stability and enhanced beauty.

- 5** When extreme wind and weather hit, **Gatekeeper** stands strong. Traditional sloped sill designs can allow the sash to bow during powerful winds, but with Gatekeeper interlocking sash-to-sill technology, the sash is channeled firmly into the window frame for a unified wall of strength.

The **Ocular** compression bulb seal creates a snug fit that eliminates light penetration between the screen and frame. It also aids in easy screen installation and removal.<sup>3</sup>

## PLUS THESE ADDITIONAL FEATURES:

- Fully fusion-welded frame and sash corners create superior strength and a clean, low-profile finished look.
- Dual-pane, double-strength glass increases strength, durability and insulation.
- Airtight insulating chambers enhance thermal performance and durability.
- Multi-layer weatherstripping helps block energy loss and protects against inclement weather.
- Dual vent stops for limited and convenient opening of the window for ventilation.
- Hidden screen track creates a clean-line design for enhanced visual appeal; half screens are standard, optional full screens available.<sup>4</sup>

## LEGACY DOUBLE-HUNG GLASS PERFORMANCE COMPARISON\*\*

	U-Factor	SHGC
Clear Glass	0.46	0.59
ClimaTech	0.29	0.30
ClimaTech Elite	0.28	0.21
ClimaTech ThermD	0.28	0.30
ClimaTech ThermD Elite	0.27	0.21
ClimaTech ThermD TG2	0.22	0.26

## LEGACY SLIDING GLASS PERFORMANCE COMPARISON\*\*

	U-Factor	SHGC
Clear Glass	0.45	0.59
ClimaTech	0.28	0.30
ClimaTech Elite	0.28	0.21
ClimaTech ThermD	0.27	0.30
ClimaTech ThermD Elite	0.27	0.21
ClimaTech ThermD TG2	0.21	0.26

\*\*Whole window values are based on double-strength glass with composite reinforcements.

<sup>1</sup>Double-hung base model will automatically be upgraded to ST (steel reinforcement) for all units ordered in excess of 48" wide or 84" high.  
<sup>2</sup>For larger size windows or to meet specific DP/PG ratings, optional weeps/performance package must be ordered.  
<sup>3</sup>Available only with the full screen option.  
<sup>4</sup>Full screens are standard on exterior color-finished windows.

## SLIDING WINDOWS

*A generous glass area complements the sleek yet strong mainframe and sashes of Legacy Sliding Windows. You'll enjoy the ample infusion of warm, natural light along with an unobstructed view of the outdoors.*

- Narrowline frame and sashes with fusion-welded corners for exceptional beauty, strength and energy efficiency.
- Insulated glass unit with double-strength glass and warm-edge spacer system provides superior thermal protection and longevity.
- Embedded, multi-chambered construction creates airtight insulating compartments for increased thermal performance and strength.
- Non-conductive, composite reinforcement in the meeting rails allows for secure mounting of hardware and improves energy efficiency.
- Nylon-encased dual brass roller system for easy-glide performance.
- Hidden screen track for a neat, clean appearance.

## DOUBLE-HUNG WINDOWS

*The Legacy Double-Hung Window combines modern technology with timeless appeal. The energy-tight construction, handsome detail and easy operation take this window from functional to fantastic.*

- Narrowline frame and sashes with fusion-welded corners for exceptional beauty, strength and energy efficiency.
- Integrated sash-to-sill interlock provides a unified wall of strength; prevents the sash from bowing in extreme winds.
- Non-conductive, composite reinforcement in the meeting rails allows for secure mounting of hardware and improves energy efficiency.
- True sloped sill creates a highly efficient drainage system to prevent water and debris accumulation.
- Constant force balance system provides smooth raising and lowering of sashes.
- Hidden screen track for a neat, clean appearance.

## AWNING WINDOWS

*Add the perfect touch of character and charm to your home with awning windows. The unique design of this expertly crafted window will impart a bold statement of style and dimension to any room while allowing ample ventilation.*

- Beveled exterior sash design creates the appearance of a larger glass area with an attractive slimline look.
- Heavy-duty, state-of-the-art hinge system provides easy operation from inside the home.
- A dual locking system on each side of the window.
- Multiple lite configurations available in a single mainframe.
- Combining awning and fixed-lite windows adds striking beauty and increased visibility.

## CASEMENT WINDOWS

*Simple beauty and superior design shine through in casement windows. This style features a maximized glass area for an elegant appearance and a wide open view. Every casement window is designed to provide your home with an attractive finish while delivering unsurpassed energy efficiency.*

- Beveled exterior sash design creates the appearance of a larger glass area with an attractive slimline look.
- Step-down frame with three weatherstripping seals provides a tight seal during inclement weather.
- Positive crank mechanism permits easy operation when opening and closing the sash.
- Multi-point locking system ensures a tight fit and added comfort.
- Multiple lite configurations available in a single mainframe.
- Combine casement and fixed-lite windows to add striking beauty and increased visibility.

PICTURE WINDOWS

*The use of fixed-lite windows and architectural shapes easily combine to form an elegant design. The gracious, unobstructed view offered by the picture window literally creates a window to the world.*

- Narrowline frame features fusion-welded corners for enhanced style, strength and energy efficiency.
- Insulated glass unit with double-strength glass and warm-edge spacer system provides superior thermal protection and longevity.
- Integrated, multi-chambered construction creates airtight insulating compartments for increased energy efficiency and structural integrity.

SPECIAL SHAPE WINDOWS

*You can create a work of art by combining specialty shapes and picture windows. Together they achieve exquisite detail you'll appreciate every day, from every angle.*

- Narrowline precision-welded frame features fusion-welded corners for a clear attractive design.
- Insulated glass unit with double-strength glass and warm-edge spacer system provides superior thermal protection.
- Multi-chambered construction creates airtight insulating spaces for greater thermal efficiency.
- Choose from a variety of architectural styles, including Circle Top, Quarter Arch, Eyebrow, Half Eyebrow, Ellipse, Full Circle, Hexagon, Octagon, Pentagon, Cathedral, Trapezoid, Triangle and more.

SWING AND HINGED DOORS

*Beauty and practicality come together in our energy-smart hinged patio doors. Increased glass area creates a focal point for your room that celebrates the outdoors. Swing and hinged doors combine classic elegance with energy-efficient glass.*

- Multi-point locking hardware with key operated deadbolt.
- Aluminum reinforced frame, sash astragal and mullions for rigidity.
- Vinyl sill with aluminum threshold.
- Self-weeping sloped sill for improved water drainage.
- Anodized, corrosion resistant aluminum sill cover with integral rolling track for optional screen.
- Three adjustable hinges allow for easy adjustments.
- Vinyl snap-on brickmold is a standard exterior trim provided for added beauty.

SLIDING PATIO DOORS

*Get the most out of the spring and summer months with classic sliding patio doors, a perfect blend of beauty and energy efficiency.*

- Three distinctive styles: Contemporary, Classic and French.
- Mainframe and sash feature a double-wall design and multi-chambered construction for added strength.
- Dual internal/external weatherstripping on the sash ensures optimal energy efficiency.
- Steel reinforcements at the interlocks and lock rails increase strength and rigidity.
- Precision-engineered tandem roller system ensures easy and quiet door operation.
- Heavy-duty extruded aluminum screen features four adjustable rollers for smooth gliding.
- Available in 2-, 3- and 4-panel configurations.
- Choose from a variety of solid colors, hardware finishes and grid patterns to complement your windows.
